2000 OCEAN: A NEW STANDARD FOR OCEANFRONT LIVING

Imagine living in a place surrounded by bamboo and lemon trees—tranquil gardens that feature a standout piece of art by award-winning sculptor David Harber. Now picture it oceanside, with stunning views of the Atlantic Ocean, Intracoastal Waterway, and endless sandy beaches. This vision is coming to life in 2020, when 2000 Ocean, a 64-beachfront residential complex, opens in Hallandale Beach, Florida.

This marvel of architecture and interior design is the brainchild of KAR Properties and architecture firm TEN Arquitectos. A residential enclave that is going to elevate the playing field of all luxury communities going forward, it is a striking 38-story tower with floor-to-ceiling glass and expansive east and west terraces. KAR Properties enlisted renowned Italian design brand Minotti to outfit the interiors. All the furnishings for the residences are fully customizable with an array of textile and leather options, allowing residents to express their own personal style. In addition, the expertly crafted kitchens, featuring Gaggenau appliances, and stone baths are the signature work of minotticucine and the fixtures and accessories are from Dornbracht and Duravit. This is all topped off by private elevator entrances and landings.

As if opulent three-bedroom, three-and-a-half baths weren't enticing enough, 2000 Ocean will be a state-of-the-art facility—featuring the comforts and conveniences of a five-star hotel. There will be two swimming pools, a spa pavilion with a Hammam, ice room, and fitness center, as well as a library and an Oceanside Cafe and Juice Bar. Residents will also enjoy direct beach access, chaise longues, valet parking, and 24-hour security and lobby attendants.

**2000 OCEAN IS A UNIQUE SYNTHESIS OF STYLE, LUXURY,
AND THE ULTIMATE RESORT-STYLE LIVING.**
